Dear Parents/Guardians:

Cumulative exposure to both **UVA** and **UVB** rays can bring multiple health problems such as sunburns, allergies, premature aging of the skin, cataracts, and skin cancer. Skin has a memory, and every **UV** exposure leaves its mark.

Balmy Beach Community Day Care Centre offers peace of mind by taking care of your child (ren)’s sun protection. Before each outdoor activity (and continually, as needed), your child will receive an application of sunscreen. **All summer long and for only \$20.00 per child, for the season (May to September inclusive)** your child will have one of the best sun protection products currently available on the market.

Developed for everyday use on a child’s sensitive skin, a minimum of **SPF 30 to SPF 60** (based on supply) **Sunscreen Lotion for Kids** are gently yet highly effective formulas that combine a high level of **UVA** and **UVB** protection, including Titanium Dioxide, a physical sun block and Aloe Vera. In addition to blocking close to 97% of the rays mostly responsible for sunburn (**UVB**), **Ombrelle’s SPF 30 to SPF 60 Lotion for Kids** protects the children from **UVA’s**, which are guilty of causing many health problems such as immune suppression, premature aging of the skin and sun allergies.

Ombrelle sun care products are recognized by the Canadian Dermatology Association and are the leading products recommended by health professionals.

Please complete, date, sign and return the form below, along with \$20.00 per child. *If you choose to send your child(ren) their own bottle of your preferred brand, please ensure that it is labelled with their name and it remains at the centre.*

.....

Please complete, date, sign and return this form to Balmy Beach Community Day Care Centre, along with \$20.00 per child. Payment can be made by e transfer or by PAD, please reply by email if you prefer the fee be added to your upcoming PAD.

I/we hereby give consent for the staff of Balmy Beach Community Day Care Centre to apply or to have my child, _____, apply **Ombrelle SPF 30 to SPF 60 Lotion for Kids**. The application will occur prior to outdoor play and as needed while outdoors and after water play activities. This consent is effective from May 1st to September 30th, 2024.
